

# 2008 SENSING OUR WORLD IN COLOR Teacher Recommendation

STUDENT NAME \_\_\_\_\_

This student is applying to participate in a week-long science camp at Notre Dame for students aged 12-14. Please review this student's records and give us your candid opinion about the suitability of the student for this camp. This information will be treated in confidence.

All projects require a certain amount of maturity. *Sensing Our World* participants make electric circuits, build their own detectors and learn about the physical and chemical properties of materials.

Please return this form separately by mail to the address below, or you may FAX it to us. We appreciate your cooperation.

**DO NOT RETURN THIS TEACHER RECOMMENDATION TO THE STUDENT**

**Mailing Address:**
